

CEB-404 Biodegradable Emulsion Breaker

Natural Demulsifier

Description CEB-404 is a readily biodegradable nonionic demulsifier used to produce well defined oil and water interface and give operators better process control. It provides fast initial water drop in a wide range of chlorides in the produced water. Like other green Flex-Chem products, CEB-404 minimizes chemical handling requirements.

No hazardous air pollutants (HAP's)
No ozone depleting compounds (ODC's)
No phosphonates
No nonylphenols (NPE's)
Zero VOC's
Not combustible/flammable
Not SARA Title III reportable

Properties	Form: Liquid	Chemical Family: Glycolipid
	Color: Clear	Solubility: Water, Acid, Brine
	Odor: Slight	Weight: 8.5 lb/gal
	Shelf Life: 2 years	Flash Point: >201°F (93.9°C)
	Specific Gravity: 0.980 – 0.999 @ 77°F	Freezing Point: <23°F (-5°C)

Application CEB-404 is injected continuously at the wellhead flowline to allow for maximum mixing of the product with the produced fluid.

Handling Open container slowly to release pressure caused by temperature variations. Do not allow this material to come in contact with eyes. Avoid prolonged contact with skin. Use in well ventilated areas. As with any chemical, employees should thoroughly wash hands with soap and water after handling this material.

Packaging CEB-404 is available in 55 gallon drums, 275 gallon totes and 330 gallon totes.
